

Biography :

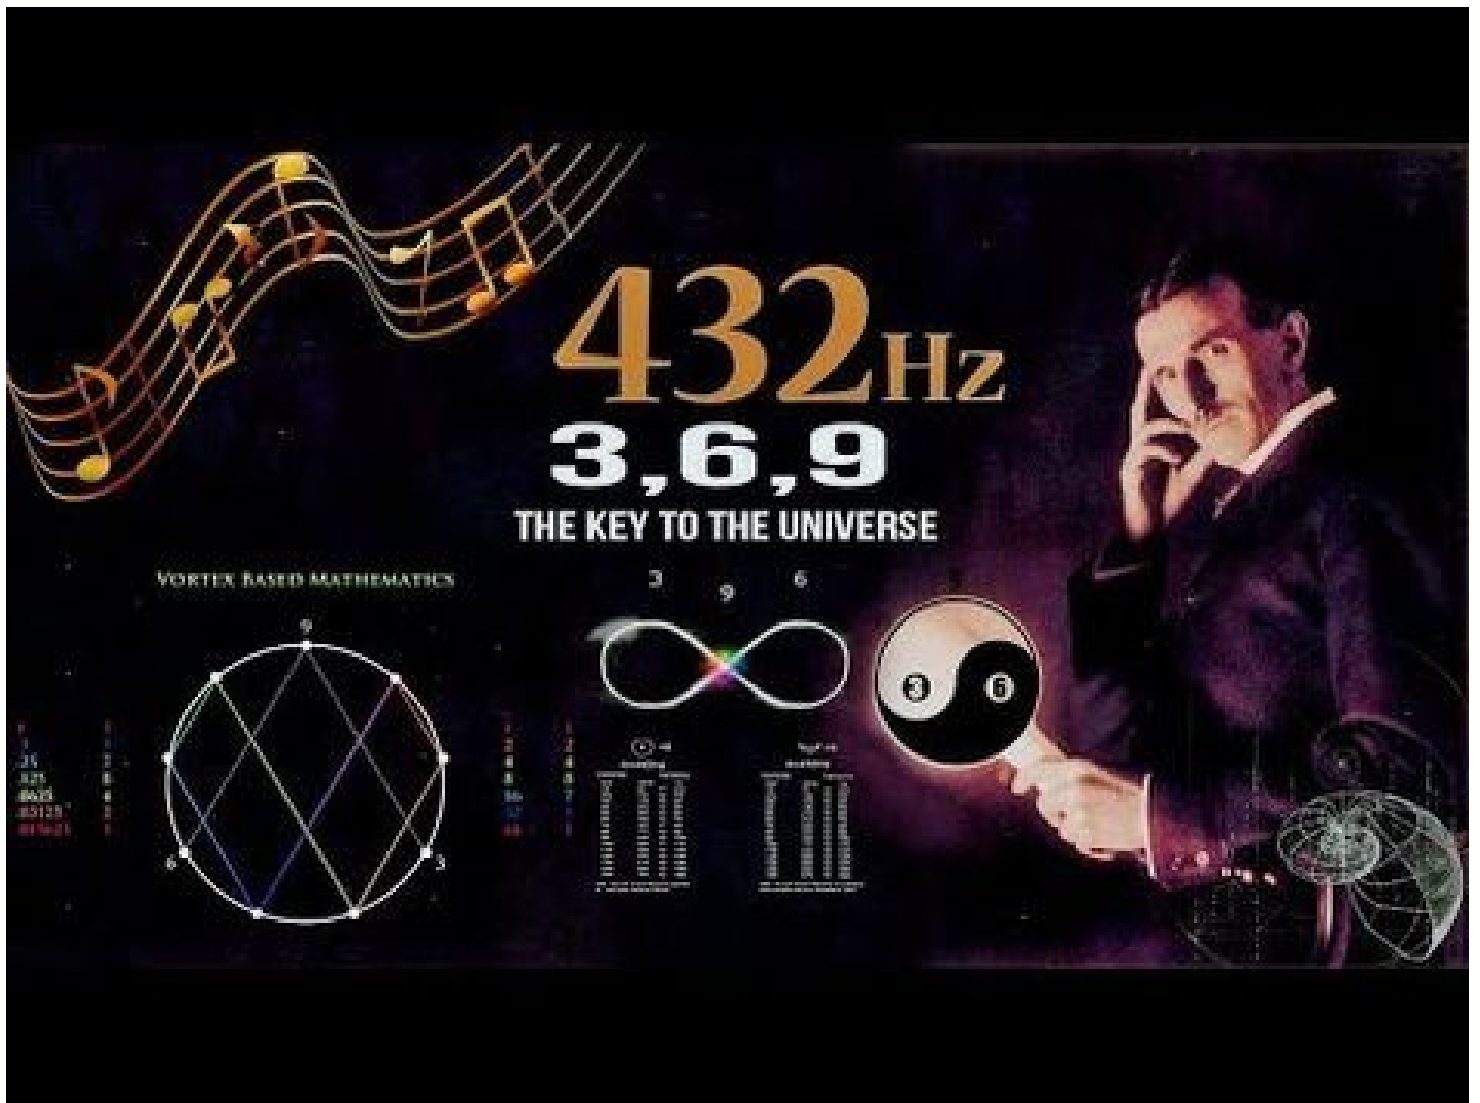

Nikola Tesla ([10 July 1856](#) ~ [7 January 1943](#))

Was a Serbian inventor, electric engineer, mechanic engineer & physicist.

He is best known for his contributions to the design of the modern alternating current (AC) electricity supply system. Aswel as the builder of the very first hydropower station, in service for large communities. Origin from Belgrade (Beograd) Serbia, he moved to the United States later, where he added much effort in favor for local power supplies and wireless electronic devices. Nikola Tesla was a believer in universal power and had obsession for the numbers 3, 6, 9. These numbers payed an important roll during the years of his existence. He also warned about terrible consequences, of human approach to the future.

∞ 3 6 9 ∞

"Today's scientists have substituted mathematics for experiments, and they wander off through equation after equation, and eventually build a structure which has no relation to reality." ~ Nikola Tesla

"If you knew the magnificence of the three, six and nine, you would have a key to the universe." ~ Nikola Tesla
