Characteristics:

Besides tobacco or related herbals, the people behind this domain or platform, do not use drugs or alcohol. We do not agree with the fact that large social platforms have more control over youth, then their proper parents. Logically, if one thinks that can do better, then do it yourself. In mean time, excused by certain political cult's, people are still being separated from their families or loved ones, in the name of Apartheid, Terrorism & War. In justification, which is the century that really will make the change or difference, to a human, democratic, more civilized kind. Keeping believe, for the thoughts of peace within global communities. In understanding that truth is valuable in critical times.

We appreciate your honesty & understanding.
